DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jennifer Brooks on June 13, 2005.

The application has been amended as follows:

- regarding claims 7 and 10, line 3 (both), the word "consant" has been changed to --consonant--.
- regarding claim 11, line 1, "processor" has been changed to --method--.

Response to Amendment

2. In response to the Office Action mailed September 21, 2004, applicant submitted an amendment filed on December 20, 2004, in which the applicant traversed and requested reconsideration with respect to independent **claims 1 and 5** and newly added claims 6-11.

Allowable Subject Matter

3. **Claims 1-11** are allowed.

The following is a statement for reasons of allowance:

As for independent claims 1 and 5, they recite a speech recognition processor and method for processing an input speech utterance in a speech recognition system. Prior art such as Sammon et al. show systems and methods but fails to teach the recited system and method comprising a linear discriminant module for computing an initial raw similarity value for each of a plurality of sound classes by computing the dot product of a linear discriminant vector with the time spectral pattern vector. While Sammon et al. computes a linear discriminant by taking the inner product of the discriminate vector, it does not take the dot product of the linear discriminant with the time spectral pattern, to obtain a raw similarity value for each of a plurality of classes. Also, Sammon method teaches recognizing characters, instead of speech.

Dependent claims 2-4 and 6-11 are allowed because they further limit their parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Sammon et al. (USPN 3,755,780) disclose a method for recognizing characters.
- Campbell (USPN 6,038,535) discloses a speech classifier and method using delay elements.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jakieda R Jackson whose telephone number is 571.272.7619. The examiner can normally be reached on Monday through Friday from 7:30 a.m. to 5:00p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wayne Young can be reached on 571.272.7582. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
